Our school initiatives are on track to meet or exceed our targets

During 2016, we focused on maximising the benefits of this funding for our students. After reviewing our 2016 *Investing for Success* agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our initiatives to ensure that every student succeeds.

Initiatives implemented include:

- Develop the TESOL pedagogies of all staff utilizing a functional approach to English language learning in meaningful contexts.
- Implement a workplace reform for two 0.5 Head of Department positions (Science and Mathematics) and provide staffing for enhanced curriculum planning.
- Develop and refine the school's curriculum to meet the needs of current students and their future learning pathways.
- Utilise targeted intervention strategies for students having foundation levels of English language literacy and numeracy and those with disabilities.
